Program Description

This program was developed to assist individuals, 18 years or older, who are eligible for discharge from the Southeast Louisiana Hospital (SELH).

GCSS helps those individuals reintegrate into their communities and transition to independent living. We offer Personal Care Assistance (PCA) services and help with housing based on the specific needs of each client.

About SELH

The Southeast Louisiana Hospital, located in Mandeville, is a 348 bed state operated psychiatric treatment facility that serves adults, adolescents, and children.

Its Adult Acute Service unit provides comprehensive care for adults with serious and persistent mental illness, focusing on symptom stabilization, education and discharge planning.
